

Break-In Performance Oils

The Next Generation in Performance Lubricants

TECHNICAL SHEET

SAE 15WT, 20w50

Product Description

LAT's new performance break-in oils are very robust in anti-wear additives. Used by many NHRA racers and many engine builders with great results in ring seal and all moving parts. Both break-in oils are very high in zinc levels along with LAT's LFR additive for extreme wear protection.

SAE Grades	15WT	20w50
Appearance	Dark Amber	Light Amber
Viscosity @ 100°C	6.1	17.9
Viscosity @ 40°C	20.2	146
Flash Point °F	420	450
Viscosity Index	155	162
Zinc Level	2800ppm	2200ppm
