

Nitro HP70 and HP50

The Next Generation in Performance Lubricants

TECHNICAL SHEET SAE Nitro HP70 and HP50

Product Description

LAT's new nitro HP70 and HP50 oils are a high viscosity performance oil for nitro and alcohol racing engines. With its high film strength and robust additive package, nitro HP70 and HP50 offer extreme protection under heavy fuel dilution against piston scuffing and valve train wear.

Features

- Heavy film strength under heavy fuel dilution
- Extreme protection on piston scuffing and valve train wear
- Advanced ester formula to withstand heavy fuel wash

SAE Grades	HP50	HP70
Appearance	Dark Amber	Dark Amber
Viscosity @ 100°C	22	34
Viscosity @ 40°C	205	322
Flash Point °F	452	434
Viscosity Index	142	149
